THE WONDROUS VIOLET FLAME!

Just as sunlight when passing through a prism refracts as the seven colors of the rainbow, spiritual Light manifests as seven rays. The violet flame is the essence of the seventh ray. Each ray has a color, vibrational frequency and quality of God's consciousness. The wondrous violet flame encompasses the qualities of transmutation, forgiveness, freedom, justice and mercy. It is said to have the highest vibratory level of the Holy Spirit. The use of the violet flame is a **major key** to our connecting with our Higher Self more fully. It is one of the most powerful tools we can use for self-transformation.

Saint Germain releases knowledge of the Violet Flame

Saint Germain is known as the Lord of the Seventh Ray and it was through him that the knowledge of the violet flame was released in the 1930's through his teachings to Guy Ballard. The violet flame had been kept secret for centuries, but the Ascended Masters decided to release it to the public during that crucial time. Saints and adepts of East and West have long used the violet flame to accelerate their spiritual development.

"The use of the Saint Germain violet consuming flame is more valuable to you and to all mankind than all the wealth, all the gold and all the jewels of this planet."....Saint Germain (The Voice of the I AM, January 1941, p.20)

The "Cosmic Eraser"

The violet flame has been called the "Cosmic Eraser". It is said to be able to transmute negative substance within our being - even the energy of our karma! (See Chapter, "*Balancing/Transmuting Karma*"). By transforming negative thoughts, feelings and energy, the violet flame powerfully assists us with our healing - physical, mental and emotional.

*"This quality of the sacred fire (the violet flame) is truly the universal unguent that man can apply for the healing of his entire consciousness, being, and world....the violet transmuting flame enables man to win his freedom from every form of human bondage."....**"Climb the Highest Mountain", pg. 360***

How does the Violet Flame work?

The following is from the Summit Lighthouse website (<http://www.tsl.org/violet/violetflame.asp>) and explains how the violet flame works:

"The violet flame works a little like soap. Soap gets dirt out of your clothes by using the positive and negative charges of atoms. It works because each of its molecules has two sides-a side that is attracted to dirt and a side that is attracted to water. The dirt-loving side attracts the dirt, like a magnet attracts paper clips when it is dragged through a box of them. The water-loving side sticks to the water, carrying the dirt with it.

"When we invoke the violet flame, it sets up a polarity between the nucleus of the atom and the white-fire core of the flame. The nucleus, being matter, assumes the negative pole; the white-fire core of the violet flame, being Spirit, assumes the positive pole.

"The interaction between the nucleus of the atom and the light in the violet flame establishes an oscillation. This oscillation dislodges the densities that are trapped between the electrons orbiting the nucleus. As this hardened substance that weighs down the atom is loosened, it is thrown into the violet flame and carried away.

"But unlike soap, the violet flame does not simply surround and remove the debris; it transforms it into pure light-energy. Freed of this debris, the electrons begin to move more freely, thus raising our vibration and propelling us into a more spiritual state of being.

*"It is impossible to enumerate exhaustively all of the benefits of the violet flame, but there is indeed an alchemy that does take place within the personality. The violet flame goes after the schisms that cause psychological problems that go back to early childhood and previous incarnations and that have established such deep grooves within the consciousness that in fact have been difficult to shake lifetime after lifetime....**Saint Germain, "The Science of the Spoken Word", page 186***

What happens when we repeat the words of a violet flame decree?

"People do notice a spiritual and physical difference when they use the violet flame. But what actually happens when we repeat the words of a violet-flame decree?

"I can give you two perspectives on this-the spiritual perspective as it has been revealed to me by the Ascended Masters and a scientific perspective based on recent developments in physics and medicine. Both explanations involve the concept of vibration.

"In physics, vibration is the speed at which something moves back and forth, or oscillates. As I understand it, at a spiritual level vibration is also the rate of spin of the electrons as they move

around the nucleus of the atom. As we will see, these definitions may not be far apart.

"We each have four bodies that are envelopes of our soul: (1) the physical body, which we can see and touch; (2) the desire, or astral, body, which contains our emotions; (3) the mental body, which is our conscious mind; and (4) the etheric, or memory, body, which contains the memories of all of our past lives. The violet flame works on these four lower bodies by changing the rate of their vibration.

"Saint Germain has given us the violet-flame decree:

"I AM a being of violet fire!

I AM the purity God desires!"

(listen to this decree in Real Audio format at <http://www.tsl.org/violet/violetflame.asp>)

"When you recite this and other violet-flame decrees, the violet flame permeates every cell and atom of your body, into your mind, your emotions, your subconscious and your memory.

What does the violet flame do when it permeates your atoms?

The Masters have given the following explanation:

"We all know that atoms are mostly empty space. If an atom were the size of a basketball, its nucleus would still be too small for our eyes to see. Yet 99.9 percent of the mass of the atom is concentrated in the nucleus, leaving the rest of that basketball as empty space, inhabited solely by electrons, which weigh very little. All that empty space between the nucleus and the edge of the atom is where discord and negative energy can become stuck.

"At the cellular and molecular level, this substance appears as dust, soot, tar or even cement. The Masters have used the illustration of someone taking a pail of molten tar and pouring it over a barrel full of marbles. The space between the marbles gets gummed up by the tar running down, and soon the whole mass is welded together.

"The Masters tell us that when our physical and spiritual bodies become clogged by negative energy and karma, it slows down the vibration of the electrons in our four lower bodies. We then begin to resonate more with negativity and less with the pure cosmic energy that comes from our God Presence, and eventually we can become ill. The more substance there is in our four lower bodies, the lower our rate of vibration and the more burdened we become. Spiritually, this is why people die.

"If you have studied acupuncture and yoga, you know that optimum health comes when spiritual energy is flowing freely through our bodies. When karmic substance solidifies, it's like the hardening of the arteries of our spiritual bodies. When we resonate with this negativity, we will gradually become it unless we do something to turn ourselves around.

"The violet fire transmutes anything negative that is lodged anywhere in your spiritual or physical being. This includes everything from kernels of self-hatred to physical viruses. When the violet flame goes to work, it passes through the clogged spaces between the electrons and the nuclei. It ejects these particles of dense substance from your body and dissolves them. This process transmutes the negative energy into positive energy and restores it to its native purity.

Also included on the Summit Lighthouse site is "Nine Steps for Putting the Violet Flame into Action in Your Life". Steps for visualizing the violet flame are also included in *"Balancing/Transmuting Karma"*.

"There is no person who has ever made his ascension who hasn't had the violet flame given to him

some way or another....in some way, perhaps on the inner planes, they had to have reached the state of consciousness of the seventh ray where they could call forth the violet flame to consume their human creation."....**Mark Prophet, "The Lost Teachings of Jesus", Vol. 1, page 211)**
